

Marco Túlio Costa

Senior Software Engineer | Tech Lead | Cloud & Distributed Systems

 marcotscosta@gmail.com  linkedin.com/in/o-marcocosta  github.com/o-marcocosta  o-marcocosta.web.app

PROFESSIONAL SUMMARY

Software Engineer with 10+ years of experience building scalable distributed systems using .NET, React, and cloud platforms (Azure & GCP). Strong experience leading end-to-end system delivery, designing reusable architectures, and driving technical decisions in high-impact projects. Recognized as a technical reference, with experience in client-facing roles, team mentorship, and accelerating development through internal frameworks and AI-driven tooling.

KEY ACHIEVEMENTS

- Led end-to-end delivery of a production system as primary technical owner in a multinational industrial environment.
- Designed and implemented a reusable internal .NET framework adopted across multiple systems.
- Accelerated development across projects through architecture standardization and reuse.
- Led a critical database migration (NoSQL → Relational) under tight deadlines.
- Acted as a technical reference, driving architecture decisions and mentoring developers.
- Contributed to internal initiatives involving Generative AI and developer productivity.

PROFESSIONAL EXPERIENCE

Accenture Brazil

Senior Software Engineer / Tech Lead

Jul 2023 – Present

- Led end-to-end development of a critical system for a multinational company in the mining/industrial sector, acting as the primary technical owner from architecture design to production go-live.
- Designed and implemented a reusable internal .NET framework to accelerate development across multiple systems.
- Enabled faster delivery and improved consistency by standardizing architecture and reusable components.
- Led a database migration initiative from NoSQL to relational model in a mission-critical system, ensuring delivery under strict deadlines.
- Acted as a technical reference for the team, leading code reviews, architecture decisions, and task breakdown.
- Collaborated directly with stakeholders and business teams, translating complex requirements into scalable technical solutions.
- Supported backlog prioritization, planning, and technical discovery of new features.
- Contributed to initiatives involving Generative AI, including developer productivity improvements and AI-assisted workflows.

Liven Tech

Product Manager

Jun 2021 – Dec 2023

- Managed cross-functional teams (engineering, QA, product) delivering SaaS solutions.
- Led product planning, backlog prioritization, and delivery coordination.
- Defined product requirements and aligned technical solutions with business goals.
- Worked closely with stakeholders to ensure delivery within scope and timeline.

Fila Digital

Backend Developer

Dec 2021 – Nov 2023

- Led infrastructure migration from container orchestration to a serverless platform, reducing operational costs.
- Developed scheduled notification system using cloud-native services.
- Contributed to backend evolution and system scalability improvements.
- Introduced and applied Clean Architecture principles.

Serasa Experian

Python RPA Developer

Nov 2018 – Jun 2021

- Developed automation solutions using Python, Selenium, and web automation tools.
- Contributed to global projects collaborating with teams across Europe and Latin America.
- Trained and mentored new team members in automation practices.
- Participated in digital transformation initiatives within financial operations.

TECHNICAL SKILLS

Languages: C#, JavaScript, Python, Java

Frontend: React

Backend: .NET (ASP.NET Core, Serverless), Node.js

Cloud & Infrastructure: Azure (Functions, Messaging, Monitoring), Google Cloud Platform, Docker, Kubernetes

Architecture & Practices: Clean Architecture, Event-driven Architecture, Microservices, CI/CD

Databases: SQL and NoSQL databases (relational and document-based)

AI & Productivity: GitHub Copilot, Prompt Engineering, AI-assisted development workflows

EDUCATION

Bachelor's Degree in Computer Science

Universidade Federal de Lavras (UFLA)

2015 – 2021

Technical Degree in Electrical Engineering

Escola Técnica Estadual de Furnas (ETEF)

2013 – 2014

Professional Course in Web Design

Instituto Federal do Sul de Minas (IFSul)

2013

CERTIFICATIONS

- Microsoft Certified: Azure Fundamentals
- Kanban Practitioner Certified
- Yellow Belt Lean Six Sigma

LANGUAGES

- Portuguese — Native
- English — Full Professional
- Spanish — Full Professional

TALKS & COMMUNITY

- Speaker on Software Architecture for developers (2024)
- Speaker on technology careers for university students (2024)
- Conducted workshops and courses on Web Development and React
