PROFESSIONAL SUMMARY

Software Engineer with strong expertise in C#, .NET, and Azure, leading technical delivery for business-critical enterprise applications, including systems subject to SOX controls and integrations with SAP. Experienced in solution design and architecture while remaining hands-on, with a strong background in system modernization, .NET upgrades, NoSQL-to-SQL database migrations, and the redesign of integrations and distributed workflows.

PROFESSIONAL EXPERIENCE

Accenture Brazil

Jul 2023 - Present

Software Engineer / Tech Lead

- Led technical delivery for critical enterprise applications using C#, .NET, Azure, and React, acting as the technical reference for a team of 4 engineers from solution design through production go-live
- Built an internal backend and frontend framework with reusable .NET and React components and patterns, adopted across four applications and reducing project startup time by approximately 40%
- Led the migration from Cosmos DB to SQL Server, contributing to relational modeling, application restructuring, and technical direction of the team throughout the transition
- Redesigned distributed workflows integrated with SAP, reviewing the architecture across the application, queues, and services to simplify the flow and improve maintainability
- Led the technical adaptation of a business-critical application to meet SOX controls, coordinating technical changes and cross-team dependencies
- Modernized Azure Functions applications from .NET 6 to .NET 10, assessing technical dependencies and infrastructure impacts to complete the upgrade within a short timeframe
- Led the technical development of a new enterprise application from inception, guiding a team of 2 engineers through requirements gathering, architecture, prioritization, development, and client engagement

Fila Digital

Dec 2021 - Nov 2022

Backend Developer

- Led the infrastructure migration from Kubernetes to Google Cloud Run, eliminating infrastructure idle time and reducing operational costs by approximately 35%.
- Developed a scheduled notification system using Google Cloud Tasks and Cloud Functions
- Contributed to backend evolution and system scalability improvements
- Introduced and applied Clean Architecture principles

Liven Tech

Jun 2021 - Dec 2022

Product Manager

- Managed cross-functional teams (engineering, QA, product) delivering SaaS solutions
- Led product planning, backlog prioritization, and delivery coordination
- Defined product requirements and aligned technical solutions with business goals
- Worked closely with stakeholders to keep deliveries on time and within scope

- Developed automation solutions using Python, Selenium, and web automation tools
- Contributed to global projects, collaborating with teams across Europe and Latin America
- Trained and mentored new team members in automation practices
- Participated in digital transformation initiatives within financial operations

TECHNICAL SKILLS

Languages

C#, JavaScript, TypeScript, Python, Java

Backend

.NET (ASP.NET Core, Serverless), Node.js

Architecture & Practices

Clean Architecture, Event-driven Architecture, Microservices, CI/CD

AI & Productivity

GitHub Copilot, Prompt Engineering, AI-assisted development workflows

Frontend

React, React Native, JavaFX

Cloud & Infrastructure

Azure (Functions, Messaging, Monitoring), Google Cloud Platform, Docker, Kubernetes, Terraform (IaC)

Databases

SQL and NoSQL databases (relational and document-oriented)

EDUCATION

Bachelor's Degree in Computer Science

Universidade Federal de Lavras (UFLA)
2015 - 2021

Technical Diploma in Electrotechnics

Escola Técnica Estadual de Furnas (ETEF)
2013 - 2014

Professional Course in Web Design

Instituto Federal do Sul de Minas (IFSul)
2013

CERTIFICATIONS

- Microsoft Certified: Azure Fundamentals
- Kanban Practitioner Certified
- Yellow Belt Lean Six Sigma

TALKS & COMMUNITY

- Delivered a talk on Clean Architecture for software developers (2024)
- Delivered a talk on technology careers for Computer Science students (2024)
- Conducted talks and workshops on Web Development and React (2015-2020)

LANGUAGES

- Portuguese — Native
- English — Professional Working Proficiency
- Spanish — Professional Working Proficiency
